

Looking for more? Let the Library help you to get more through interlibrary loans (19/03/2012)

Dear All,

The Library has built up a global network of partner libraries, so that from these libraries we can borrow/obtain those library materials that our users may need and yet are not available in our own Library. This interlibrary loan service has proved to be very popular. For example, in 2011, we borrowed some 500 volumes of books and obtained close to 900 journal articles/documents for our users.

Should you wish to use this service, you are welcome to simply click into the following link:
