

Easy Reading Area in the Library (04/11/2011)

Dear All,

In order to provide a relaxing and user-friendly reading environment to our users, the Library has re-configured and expanded its newspaper reading area on the 2nd floor. Some "easy to move" furniture are provided, so that users can form flexible spaces according to their needs. This is an ideal area for reading, reflection, interaction, and collaborative learning. In addition, as wireless connections are available throughout the library, users can work with their laptops and any other mobile devices in this area.

All are welcome to use this area! If you have any suggestion regarding this area, please feel free to send email to lib_suggestion@umac.mo.

Thank you very much.

Regards,
UM Library
