

A New Function in "My Library Account" -- Viewing My Reading History (01/06/2010)

Dear Library users,

In order to further enhance the Library's user services, a new function has been added to the "My Library Account" (<https://umaclib3.umac.mo/patroninfo>) in the Library homepage. After login, user may activate the "My reading history" icon; all the books being borrowed will then be recorded and shown in the account. Please note that no book history will be recorded and shown if the "My reading history" icon is not activated or de-activated. In addition to browsing your reading history, users may also delete or export his/her own reading history list.

Users are suggested to modify their default PIN (password) to further protect their privacy.

For any inquires, please feel free to contact the Library's Circulation Counter by 83978160. Thank you!

Regards,
University Library
