

Databases on trial and newly subscribed (中國學位論文全文數據庫) (04/05/2005)

In order to support faculty members in their teaching and research, the Library has already acquired a substantial number of electronic databases. To further develop along this line, the Library constantly liaises with database vendors to have their new products tried out by our colleagues before we decide to purchase them or not. The following databases are the latest.

CSA Linguistics & Language Behavior Abstracts (LLBA) covers all aspects of the study of language including phonetics, phonology, morphology, syntax and semantics.

SAGE Full-Text Collections cover such databases as Communication Studies, Education, Management & Organization studies, Materials Science, Political Science, Psychology and Sociology.

You are cordially invited to try out these databases via the campus network until 31st May 2005. Please directly go to the platform of CSA Illumina at www.csa.com with the following information for login. **Username: macau / Password: macau05**

In addition, we are pleased to announce that CDDBFT 《學位論文全文》, one of product of Wanfang Data, is now subscribed for your search. From now on, with the link of Wanfang Data, you can use the CDDBFT to retrieve the full text of Master's Theses and Doctoral Dissertations in such subject area as Social and Humanities for reference.
