Database On Trial: HeinOnline (01/09/2005)

In order to support faculty members and students in their teaching, learning and research, the Library has already acquired a substantial number of electronic databases. To further develop along this line, the Library constantly liaises with database vendors to have their new products tried out by our users before we decide to purchase them or not. The HeinOnline is the latest one.

HeinOnline is a research database for legal literature, providing full text access to legal journals and other legal materials from seven collections, namely, Law Journal Library, Federal Register Library, Treaties and Agreements Library, U.S. Supreme Court Library, European Center for Minority Issues, U.S. Attorney General Opinions and Legal Classics.

You are cordially invited to try out this database via the campus network until 1st October 2005. Please use the link provided in "Trial Databases" at our website or directly go to the website of HeinOnline at http://HeinOnline.org to start searching.
