

Database Training (17/10/2005)

In order to continuously enhance the ability of faculty members and students in searching the e-resources in the Library, we constantly liaise with database vendors to offer a variety of training for our subscribed products. The schedule of the latest training sessions is listed as follows:

1) LexisNexis

This database, LexisNexis Academic Universe, provides access to a wide range of news, business, legal, medical and reference information. The purpose of this training session is to discuss the issues come up in the practice and present some practical examples.

Date: 20th October 2005 (Thursday)

Time: 15:00 to 16:00

Venue: B.I. Room (RC 03) of the International Library at UM

2) Scopus

Scopus is a citation database of scientific, technical and medical literature. This database provides searching capability, linking to full-text sources, cited references, saved search and alerting feature. This training session is to demonstrate the operation that faculty members and student should be aware of when using the database.

Date: 26th October 2005 (Wednesday)

Time: 15:00 to 16:30

Venue: B.I. Room (RC 03) of the International Library at UM

Thanks for your kind attention and your attendance is highly encouraged and welcome.
