

Reading Activity Highlights: Free to Read. Read to Free -- Reading Week 2015 (22/09/2015)

Dear all,

To support and promote this year's Reading Activity, the "Free to Read. Read to Free -- Reading Week 2015", which was co-organized by the Library and SAO, has been held in the Library and concluded successfully. A series of activities were provided to students and the participation was very encouraging. The following are some of the activity highlights in photos to share with you.

Although the "Reading Week 2015" has ended, it is just the beginning of the "Reading Activity 2015-16". We encourage all the students to read more extra-curricular books. Not only that you may enhance your all-round education, but also have a chance to win book coupons! For details of the activity, please refer to the following link:
