

## Launch of RSS Feeds Service on Library Catalog (09/03/2009)

Dear All,

Are you spending lots of time in keeping track of new books, journals and media materials in the Library or do you want to know the new arrivals of the Library at the earliest possible time? If so, we believe that **RSS ( Really Simple Syndication ) Feeds** service provided by the Library will help you to simplify your work.

**RSS Feeds** is a technology that delivers frequently-updated contents on the web. Through the Library's webpage, you can select the items by Collections, Faculties and Selected Subjects to set up your RSS feeds. When new contents of the Library Catalog become available online, you can easily read the updated information for the new arrivals to the Library with your browser or RSS reader.

Please take a look at <http://library.umac.mo/services/reference/rss.html> and use the Library's RSS Feeds service. Should you have any inquiries or suggestions, please feel free to send us an email to [lib\\_ref@umac.mo](mailto:lib_ref@umac.mo).

Regards,  
UM Library
