

Hong Kong Macau Periodicals Network (11/09/2006)

Dear All,

We are pleased to announce that The Chinese University of Hong Kong Library and the UM Library have jointly launched a database -- "Hong Kong Macau Periodicals Network". This database is based on an earlier database called "HKInChiP" (香港中文期刊論文索引) developed by the CUHK Library since 1999, and UM Library started to collaborate by contributing the indexes of Macau periodicals since December 2005.

This periodicals network includes Chinese and bilingual periodicals published in Hong Kong and Macau. Subjects covered are mainly in the areas of humanities and social sciences and the periodicals included are over 300 titles. This network contains indexes of periodical articles in the main, but also full-text in some cases.

For more details and to use this network, you are welcome to go to the Library's website either under the "Databases" item or "UM Digital Library" item or directly click into <http://hkmpn.lib.cuhk.edu.hk/>. If you have encountered any problems, please email lib_ref@umac.mo or call Stephen at ext. 8193.

Regards,
UM Library
