

RefWorks: An Online Management Tool for Your Research (15/09/2006)

Dear All,

We are pleased to announce that the Library has recently subscribed to **RefWorks**.

It is an online research management tool that allows users to build personal databases and format bibliographies in a variety of citation styles, e.g., APA, MLA, Chicago. This tool is very useful in assisting our faculty members and students in preparing their research papers.

Please go to the Library's homepage, click on the newly created link "**RefWorks**", or you may go to "Databases" and use the link provided to get access to **RefWorks**, or directly at URL <http://www.refworks.com>.

For login, please click the "**Login**" button on the webpage and sign up for an individual account by creating your own user name and password for access. In case the **RefWorks** login page is not for University of Macau, you may input the Group Code as [RWUMacau](#) by clicking the link of "**Login using your Group Code**" before the login and access.

If you wish to know in advance how **RefWorks** can help your research work, you may click into its online tutorial at <http://www.refworks.com/tutorial/> first.

In addition, to help you further understand what **RefWorks** is and how it helps your research, the Library has arranged with the vendor to give a demonstration, which will be held at the Bibliographic Instruction Room (RC03) of the Library at **3:00 p.m. - 4:30 p.m. on 29th September 2006**. All faculty members and students are welcome to attend the demonstration.

Kindly let us know at lib_ref@umac.mo if you have encountered any problem in your use of this tool.

Regards,
UM Library
