

## **The Information Commons in the University Library (12/09/2014)**

Dear All,

We are pleased to inform you about the facilities and services available in the Information Commons of the Library. It is located at the ground floor and has been furnished with 28 Apple iMacs, 66 desktop PCs, high-speed scanners and "Follow-You" Multi-functional photocopying and printing stations for Library users. It aims to provide a convenient access for carrying out research and learning activities such as internet searching, assignment processing, photocopying and printing. Library users can do photocopying by using either Campus Card or Macau Pass.

In the Information Commons, there is also an I.T. Service Counter providing I.T. supports and I.T. equipment borrowing service. Library users are welcomed to borrow laptop computers, USB flash drives, earphones, as well as register for using private study rooms and group discussion rooms.

The Information Commons has attracted a large number of users every day since the Library opened in August. We in the Library have endeavored to provide quality and convenient services to all UM Library users in the new campus.

All are welcome!

Regards,  
UM Library
