Dear All,

In order to support faculty members and students in their teaching, learning and research, the Library has already acquired a substantial number of electronic databases. To further develop along this line, the Library constantly liaises with database vendors to have their new products tried out by our users before we decide to purchase them or not. The following databases are the latest ones.

The three citation databases contain citation and abstract information on the published journal articles. Full-text is not available on this trial.
