Dear all,

To meet the evolving needs of users in the rapidly changing research and learning environments, and to achieve greater efficiency in a time of economic and financial pressure, libraries are increasingly looking for new paradigms to deliver improved and completely new services to users.

To have an in-depth discussion on the direction of a next generation of library collections and services, the University of Macau Library has organized the 2nd Talk of the "Macau Academic Library Alliance Professional Lecture Series" -- entitled "The Future is Already Here: Next Generation Library Solutions". This talk will be held on 14 April 2016 (Thursday) at 3:00 p.m. at the UM Wu Yee Sun Library, with support from the Tertiary Education Services Office of the Macao S.A.R government and Macau Academic Library Alliance.
