

Activity Highlights -- Library Activity - Good Luck on Your Exam (12/05/2016)

Dear All,

To give support to students for the final examination, the Library organized a **"Good Luck on Your Exams" activity** on 9 and 10 May. In the activity, the Library offered some drinks and snacks to students, and prepared a set of photo frame prop to take selfies with some little gifts for them.

Dr. Paul Poon, the University Librarian, hosted the activity. He and his colleagues distributed little gifts of stress relief to the students, wishing them all the best for the examination.

This activity has attracted about 400 students. They posted their selfie photos on social media for sharing and were very appreciative of the Library's efforts in supporting them for their examination. The attached photos are some of the highlights in this activity for browsing.

Regards,
UM Library
