

A Trio of "Reading activity 2016" (2016/11/07)

Dear students,

This year, the Library has organized the **"Reading Activity 2016"** in a brand new method. The activity consists of three parts, which are **"Sharing your Likes"**, "Reading with Prize" and **"Praising for Books"**.

The "Reading Activity 2016" is organized by the UM Library and targets for all UM students. This activity aims at promoting reading habits, enriching student life and encouraging students to read extra-curricular books, so as to enhance their all-round education which will contribute to their whole-person development. It is also designed to support the "general education" component of UM's '4-component-based' pedagogical model, to nurture well-rounded talents who are erudite and broad-minded.

We have now organized the first activity: **"Sharing your Likes"**.

For activity dates and details, please refer to the activity guidelines or the activity webpage:

<http://library.umac.mo/html/events/reading/introduction.html>

Let's read and join our Reading Activity!

Regards,
UM Library
